

with magnetical locking system

The idea:

CableAlarm is a visually inconspicuous security device for expensive, valuable articles in the haute couture and lifestyle sector as well as for household, interior, brown and white goods.

For use with:

Any items of clothing with openings (eyes, sleeves, trouser legs, etc.) – from a light blouse to a heavy fur coat. But also bags, accessories, wireless game controller, baby buggy, adornment items as well as gardening tools – from lawnmowers to composting machines. Also suitable for Wireless Controller (SI8S CAB-AL013-3AM for PS3, SI8S CAB-AL017-3AM for Xbox).

Product variations:

CableAlarm is supplied with different lengths of cable and with super or normal magnet opening strength.

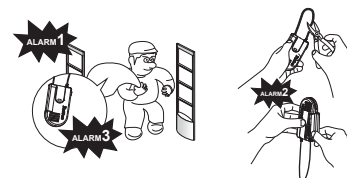

Function:

CableAlarm functions for AM-ferrite 58 KHz or RF-ferrite 8.2 MHz and is triggering the EAS gates. Upon leaving the retail premises by the EAS gates, it sets off the alarm. CableAlarm can be opened by using the magnetical Pataco key. The internal alarm is activated (95 DBa - alarm, LED illuminated in red)

- if the safety cable is cut in two
- if the battery cover is opened
- if the CableAlarm is taken through the EAS gates (RF or AM)

More features:

- Battery and wire are replaceable

CableAlarm is battery operated and therefore stand-alone. The battery lifetime is 3 years and a low charge condition of the battery is indicated.

magnetical unblocking system

Item number	EAS system	Cable length	Dimensions (LxWxD)	Colour	Detacher type
SI8S CAB-AL013-3AM (PS3)	AM	130 mm / ø 3.0 mm	88 x 50 x 27	black	Supermagnet
SI8S CAB-AL013-3RF	RF	130 mm / ø 3.0 mm	88 x 50 x 27	black	Supermagnet
SI8S CAB-AL017-3AM (Xbox)	AM	170 mm / ø 3.0 mm	88 x 50 x 27	black	Supermagnet
