

Pataco SecurityBag

Reduces theft through locking of customer items when entering your shop

- Reduce thefts because there is no possibility to pack in more goods
- Protection for bought items within the shop (departments, Shop-in-Shops) to the cash desks
- Robust and easy handling
- Reduce investment costs, no lockers, no envelopping and no additional employees
- The transparent side allows inspections
- Non transparent side protects the privacy
- Super lock for higher security
- Available with or without EAS Tag
- Customised color and designation are possible

 magnetical unblocking system
